## Smart. Storage. Solutions.

At Bradford Systems, whether you require on-site storage solutions, asset and file management or both, we have the experts on staff to help. Often, we can provide twice the capacity of standard storage options within the same space or keep capacity the same in half the space. Our systems can easily be reconfigured when your storage needs change. In addition to 43 years of experience providing high-density storage solutions, we also have over 20 years of experience providing information tracking systems, including NetTrax.NET bar coding and report-writing technology to fully support your total storage and retrieval needs.
