INFO SHEET

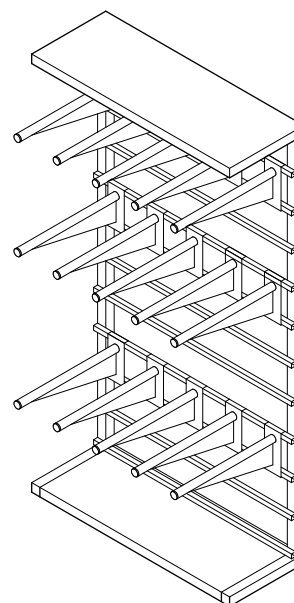

STORAGE SYSTEMS

Military Parachute Storage the ultimate in efficiency and security.

When you trust your life to your parachute you can trust Parachute Rack by Spacesaver to store it safely and securely. The durable and user-friendly Parachute Rack optimally stores your parachutes out of harms way. Combine Parachute Rack with a Spacesaver Eclipse® Powered System or ActivRAC® Mobilized Racking System and you have the best in asset protection, use of floor space, and security.

FEATURES:

- Made in the U.S.A
- Heavy-duty welded steel construction
- Vertical and Horizontal support constructed of 14 ga. steel tubing
- Sizes up to 138" high x 48" deep. Length of rack determined by room layout.
- Adjustable cantilever arms accommodate different size bags for changing needs
- Infinitely adjustable horizontally
- Adjustable on 6" increments vertically
- Cantilever arm designed to be moved horizontally along horizontal supports
- Cantilever arms are securely held in place by a thumb screw eliminating the need to use tools
- All materials used in the fabrication of the Parachute Rack are "non-reactive" preventing degradation of the stored materials
- All corners are rounded and all exposed edges are meticulously deburred to prevent snagging or puncturing of stored materials
- Single and double-faced units available
- Canopy tops available
- Durable powder coat paint – many standard colors available
- Racks can be custom sized to match your application
- Organized storage solution provides optimum storage density and efficiency

Parachute Rack & Mobile storage systems

Parachute Rack and Spacesaver mobile storage systems are designed to work together. The Parachute Rack sections easily mount to the top of the mobile carriages to work as an integrated storage system. Optimize the use of your valuable floor space by compacting your storage into a smaller footprint.

ECLIPSE POWERED MOBILE SYSTEM

Eliminate the need for space-wasting wire cages by securing your Parachute Rack and Eclipse system with the Spacesaver Touchpad with Display and Audit Trail.

BENEFITS:

- Helps protect sensitive materials from access by unauthorized persons.
- Enhances workplace efficiency with its easy-to-read display, available in multiple languages.
- Assists in maintaining personnel accountability by providing a clear record (audit trail) of access with the use of its own easy-to-use PC interface software.
- PIN-code and audit trail memory retention during a power interruption save bothersome reprogramming as well as maintains controlled access when power resumes.
- Adapts easily to your facility's changing security and use requirements with its versatility and multifunctional capability.

ACTIVRAC MOBILIZED STORAGE SYSTEM

In an already secured room eliminate the need for static aisles to maximize and even double your current storage space.

BENEFITS:

- Increase storage capacity up to 50% without adding more square footage
- Keep bulky and heavy parachute equipment organized and out of the way
- System flexibility - add on or move carriages to other locations as needed
- Mechanical Assist - three spoked handle with rotating hand knobs for easy of use.
- Designed to work with new or existing racking, shelving, and drawer systems
