Your Arms Room. Mobilized.

SPACESAVER'S UNIVERSAL EXPEDITIONARY™ WEAPONS STORAGE SYSTEM (UEWSS)

When it comes to weapons storage, the needs of a field mission are very different than those in garrison. When you ship containers of weapons not meant for training or deployment, it can create a host of issues—disorganization, increased work, and lack of safety. Alleviate these concerns with the Universal Expeditionary™ Weapons Storage System—Spacesaver's advanced take on a military Type 1 TriCON container capable of storing, shipping, and supporting all the arms, crew serve weapons, and collateral gear your unit needs in one secure place.

SECURE: Heavy-duty steel construction ensures that the container's contents are well protected, featuring durable straps and purpose-made housing to establish a secure fit. Cabinet drawers are fitted with a locking mechanism to prevent accidental opening.

CONFIGURABLE: The UEWSS features six interchangeable "plug and play" components. Each 15" x 34" single-tier section can hold significant quantities of a number of weapon types.

ACCESSIBLE: The system provides secure, quick, and easy access to all weapons and accessories, and weapons can be stored with optics mounted so they are ready for action immediately upon arrival.

COMPACT: While weapons racks and cabinetry line the container's outer perimeter, the empty space in the middle can accommodate additional gear during transport.

FEATURES:

- Versatile six-section "plug and play" capability to fit your needs, including (but not limited to) storage of M4s, M16s, M240s, M249s, M870s, M2s, MK19s, and associated collateral gear for multiple Expeditionary and Special Warfare TOA platforms
- Durable Construction:
 - » Corrugated Steel Sides, Roof, and Swing Doors
 - » Heavy-duty Steel Floor and Forklift Pockets
- Adjustable shelving brackets, manifest boxes, and vents for maximum configuration
- Tie-down steel lashing rings and front/door corner post tie downs to load additional items
- Exterior Color Options: Standard Green or Standard Tan
- Interior Color Option: Tan
