TMI Cares

healing

Healing is a science that is greatly influenced by the environment. TMI designs and builds casework and architectural woodwork for healthcare facilities, with products that support effective medicine and nurtures the healing process.

Select from a full menu of popular and proven specification options, from hardware to core materials, from laminates to PVC and ABS edgebanding. TMI employs technology to engineer fully customized casework which accommodates the needs of the healthcare industry.

TMI casework will make a strong visual statement about your facility's commitment to excellent care. Patients and their families will sense warmth, quality, and a concern for detail. Medical staff will be inspired by a professional environment designed to help them be as effective and efficient as possible. As a single source provider, TMI integrates our casework, countertop and architectural woodwork options, providing a cohesive, functional healthcare environment.
