

## Customer presentation

EUTRON is a forward looking company striving to anticipate the technological evolution and future challenges of the "Intelligent World" forming around us. Complex system integration, Digital Technology and Wireless communications, together with Energy efficiency are becoming key focus areas for the continuing success and growth of Eutron.

### ✔ Problem...

Eutron Kunshan's warehouse is not so big, and they have many electronic spare parts need to store. So Eutron Kunshan was looking for a solution that can store their spare parts and save space, they also hope can connect with their ERP system.

### ✔ Solution!

Thanks to Modula LIFT, they succeed to store electronic spare parts in one close and compact vertical warehouse controlled by the person who has the permission. Modula WMS Standard (3 Users License) well connects with their ERP. And we also provide air condition unit to keep the machine in a stable temperature and humidity environment.
