DAY USE LOCKERS
Storage for an evolving workplace.
Designing an environment to accommodate these changes requires a human-centered approach, one that gives equal weight to function and aesthetic. Spacesaver Day Use Lockers live at this intersection, allowing your organization to adapt to the need for more convenient, flexible spaces, while blending seamlessly with your building’s overall design.

FUNCTION & AESTHETICS

STORAGE MADE SLEEK

The way people work and learn is evolving, and along with it, the way they interact with the spaces where they work.
Day Use Lockers are a smart, secure way to store personal items wrapped in a sleek design that can be customized with the configuration and accessories you need for your work environment.

**BECAUSE PRACTICAL CAN STILL BE STYLISH**

**ADAPT YOUR SPACES**

Whether being used as a built-in wall, wall partition or island, Day Use Lockers serve as the building blocks to your workplace environment.
With more employees working remotely and an increased desire for alternative workstations, more companies are creating work environments with more communal space for individual and collaborative work. Day Use Lockers are a sleek alternative to personal desk/cabinet storage for stashing files, briefcases, gym bags, and office supplies in shared desk environments. Plus, they’re an efficient way to make use of empty wall, island, or under-desk space.

66% OF THE COMPANIES SURVEYED BY CBRE PLAN TO ADOPT A SHARED DESK STRATEGY BY 2020.

With more employees working remotely and an increased desire for alternative workstations, more companies are creating work environments with more communal space for individual and collaborative work. Day Use Lockers are a sleek alternative to personal desk/cabinet storage for stashing files, briefcases, gym bags, and office supplies in shared desk environments. Plus, they’re an efficient way to make use of empty wall, island, or under-desk space.
When students and staff need a secure place to stow their bag while they’re in a classroom, lab, testing center, dining hall, or gym, Day Use Lockers are the perfect solution for keeping items secure and nearby. Electronic locks provide ease and peace of mind, while optional interior charging provides convenience on-the-go.
STYLES & OPTIONS

Day Use Lockers adapt to your needs and your space from the start. Here’s a system that’s available in a full range of dimensions: with heights from 24-96 inches, depths from 12-24 inches, and widths from 12-24 inches (1” increments).
