## Designing your sheet music, musical equipment and apparel storage for the greatest space efficiency

Music Filing Systems can be installed to make the best use of your available space. The best situation is to line the perimeter of our room with shelving, leaving the center of the room free for practice space. By combining multiple sections into connected ranges, you can maximize the room's capacity.

Compared to file cabinets, our Music Filing System allows you to get more sheet music in the same space, and at the same time open up the room for other uses.

We've developed a sheet music filing system utilizing hanging compartments with insertable label holders on the front. This system was designed to fit within existing Wenger library pull-outs, and allowed more music to be stored in the cabinets. Also, the music was better protected, and easier to access.

We have also developed a stand-alone fixed filing system that doubles the space efficiency of file cabinets, and that is much less expensive than mobile shelving systems.

### Taking storage mobile:

File room space at a premium? Mobile music filing carts may be your answer! Tuck the music in a storage room and bring it out at rehearsal/ concert time.

## Many solutions for your music department

### Large Musical Instrument Shelving Units

Store all your large instruments in our highly customizable shelving units. Bottom shelf level can be open to the floor, so your Timpani and other items can roll right in!

### Choir Robe Storage

At concert time, EVERYBODY wants their robe at the same time. Imagine rolling up one 9 foot wide door, instead of unlocking and pulling open three 3 foot hinged doors. Garment rails are easily adjustable for different height robes.

### Mobile Band Uniform Carts

Our mobile carts are available with or without tambour doors. Great for rapid deployment to your staging area.
